QUESTION ON NOTICE

Councillor Martin will ask the following Question on Notice:

'The former Federal Sports Minister and South Australian Senator Chris Schact raised on ABC Radio in Adelaide last week concern about governance issues around the City of Adelaide's negotiations with the Crows to establish a new headquarters on Park 2.

1. Is it correct that the Crows licence is owned by the Melbourne based AFL and, if so, what is the term of the licence agreement?

QUESTION ON NOTICE

Councillor Martin will ask the following Question on Notice:

'I refer to the series of publications in the Advertiser 'A deputy mayor, a failed builder and a register of interests' dated 29 June 2019 and 'City backs deputy's interests' dated 3 July 2019 in which it was alleged there had been a failure of an elected member to disclose on the register of interests his connection to a failed building company and to a building products supplier. Additionally, I refer to an article first published in the Advertiser 'No Conflict on Central Market: Councillor' dated 5 September alleging a elected member had not declared a possible actual conflict of interest at confidential briefing into a Council development that will impact his family's business. The Administration responded in the media that there had been no breaches of the Local Government Act or codes and regulations governing this conduct of elected members.

Could the Administration advise;

1. If in reaching those conclusions it sought external legal advice
2. If it has sought the advice of or referred these matters to Ombudsman?'

Permit Parking System

ITEM 11.2 10/09/2019
Council

Council Member
Councillor Moran

2019/00551
Public

Receiving Officer:
Mark Goldstone, Chief
Executive Officer

MOTION ON NOTICE:

Councillor Moran will move a motion and seek a seconder for the matter shown below to facilitate consideration by the Council:

'That Council:

- (1) instigate a trader's permit system on 88 O'Connell Street carpark to allow traders to override the time limits;
- (2) investigate a permit system for teacher parking around St Dominic's priory, annexing the curb side directly adjacent to the school, similarly to the Women's and Children's Hospital parking permit system in McKinnon Parade.'

ADMINISTRATION COMMENT:

1. Council has development approval for a "temporary activation program" and ancillary car parking at 88 O'Connell Street North Adelaide. A sixty (60) bay temporary car park has been established in support of the current activation program. The car parks are timed (4 hours) and free of charge.
2. The car park is expected to be in operation until the site's long-term redevelopment has been finalised.
3. Initiating a trader parking permit would result in car parking that is not in accordance with the current development approval. A development application for a change in land use would therefore be required. This would most likely result in a non-complying development which is subject to a complex and lengthy application process which can be pursued if so desired. It is considered that maintaining the car park in its current arrangement will best serve the needs of O'Connell Street, supporting visitors to the site (through the activation program) and potentially the broader precinct.
4. We acknowledge the feedback received regarding parking around St Dominic's Priory.
5. Our intent is to address possible solutions to the issues raised regarding parking near St Dominic's in the upcoming Committee Workshop on 17 September 2019. This will include a review of all feedback received since the start of the parking changes in North Adelaide.

With the purpose of the meeting being to see how the City of Adelaide could become involved for the benefit of our ratepayers.'

ADMINISTRATION COMMENT:

1. The City of Adelaide has been working with Council Solutions since 2014 on the joint tendering and contracting of waste services, with the view to benefit from shared costs and economies of scale.
2. Council has approved the Council Solutions procurement process (under CEO delegation) with tenders issued in late 2018.
3. The City of Port Adelaide Enfield and the City of Charles Sturt have recently announced a joint project to build and operate a material recovery facility (MRF) for the processing of recycling materials.

MOTION ON NOTICE:

Councillor Simms will move a motion and seek a seconder for the matter shown below to facilitate consideration by the Council:

'That:

Council sets a policy position to prohibit the use of artificial turf on verges.'

ADMINISTRATION COMMENT:

1. The use of artificial turf is not currently considered for use on Council verges.
 - 1.1. The Nature Strip Application form requires residents to nominate whether turf or plants are proposed and to provide details for irrigation systems. A note stating that artificial turf is not permitted could be added to clarify that the term 'turf' refers to natural turf.
 - 1.2. The Adelaide Design Manual – Greening guiding principles prescribes landscape treatments that mitigate urban heat and assist with urban cooling. The surface temperature of artificial turf is higher than other surfaces, including asphalt and significantly higher than natural turf.

This will include a review of all feedback received since the start of the parking changes in North Adelaide.

Receiving Officer:
Mark Goldstone, Chief
Executive Officer

MOTION ON NOTICE:

Councillor Knoll will move a motion and seek a seconder for the matter shown below to facilitate consideration by the Council:

'That Council:

Whilst taking into consideration ongoing feedback from the West End community, requests administration:

- (1) Work with local traders to make Hindley Street safer and more amenable through increased compliance and awareness of outdoor dining permits, with a focus on Shisha Lounges.
- (2) Work with the State Government to improve the public health outcomes on Hindley Street with a focus on minimising the impacts of secondhand smoke.'

ADMINISTRATION COMMENT:

1. We are and will continue to monitor, investigate, and enforce Outdoor Dining (ODD) Permits in Hindley Street as committed through the report 'Hindley Street Improvement Project' presented to Council on 30 July 2019. Council noted a series of 'Quick Wins' as part of the Hindley Street Improvement Project, including Short Term Improvement 2:
 - 1.1 Outdoor dining furniture has been observed to extend beyond the permitted area in a number of locations, encroaching into the available footpath space and creating congestion points for pedestrians.
 - 1.2 Increased monitoring would improve levels of compliance and improve pedestrian movement.
 - 1.3 Increased patrols and enforcement have already commenced.
 - 1.4 Works will be funded through existing operational budgets
2. Further, as a part of the 2019/2020 ODD Permit renewal process, a new initiative will be trialled for Hindley Street ODD Permit holders. Permit holders will be provided with a larger window decal which more clearly shows the approved ODD configuration. This initiative serves as an education tool, promotes voluntary compliance, and assists Council's Community Safety Officers to monitor compliance.
3. If this motion is supported, we will also work with SA Health to improve public health outcomes in Hindley Street, with a focus on second-hand smoke.

MOTION ON NOTICE:

Councillor Donovan will move a motion and seek a seconder for the matter shown below to facilitate consideration by the Council:

'That Council:

- (1) Notes the recent data compiled by Walking SA on pedestrian safety within the City of Adelaide.
- (2) Notes the current opportunity to provide policy input to complement/inform the Integrated Transport Plan and City Access Strategy.
- (3) Requests administration prepare a detailed walking strategy as part of the Adelaide Design Manual, including a peer review of the walking strategies of other cities (eg Melbourne and Sydney), to improve Adelaide's walkability and liveability.'

ADMINISTRATION COMMENT:

1. Should this motion be carried we will commence planning for and subsequently commission a Walking Strategy to improve walkability and liveability in the city.
2. We note the pedestrian safety data recently compiled by Walking SA, which will inform the strategy. Existing data sets and research previously presented to Council will also inform the development of the Walking Strategy, including the City-Wide Crash Review and Pedestrian Amenity at Traffic Signals study.
3. The Walking Strategy will be developed alongside and in close consultation with the City Access Strategy to ensure that the documents complement each other.
4. The 2019/20 Integrated Business Plan includes a budget to prepare an Integrated Transport and Movement Strategy for the city. Given that a Walking Strategy would form part of the Integrated Transport and Movement Strategy, it is considered that part of this budget allocation could be utilised to develop the Walking Strategy, if endorsed by Council.

END OF REPORT –
