

Enabling Priorities

**Brown Hill and Keswick
Creeks Stormwater Board
Quarter 3 Update 2022/23**

CITY OF
ADELAIDE

Purpose of the Regional Subsidiary

The Cities of Adelaide, Burnside, Mitcham, Unley and West Torrens have worked collaboratively over several years to form a Section 43 Committee Under the *Local Government Act 1999 (SA)* to develop a Stormwater Management Plan (SMP) aimed at mitigating flood risk within the catchment.

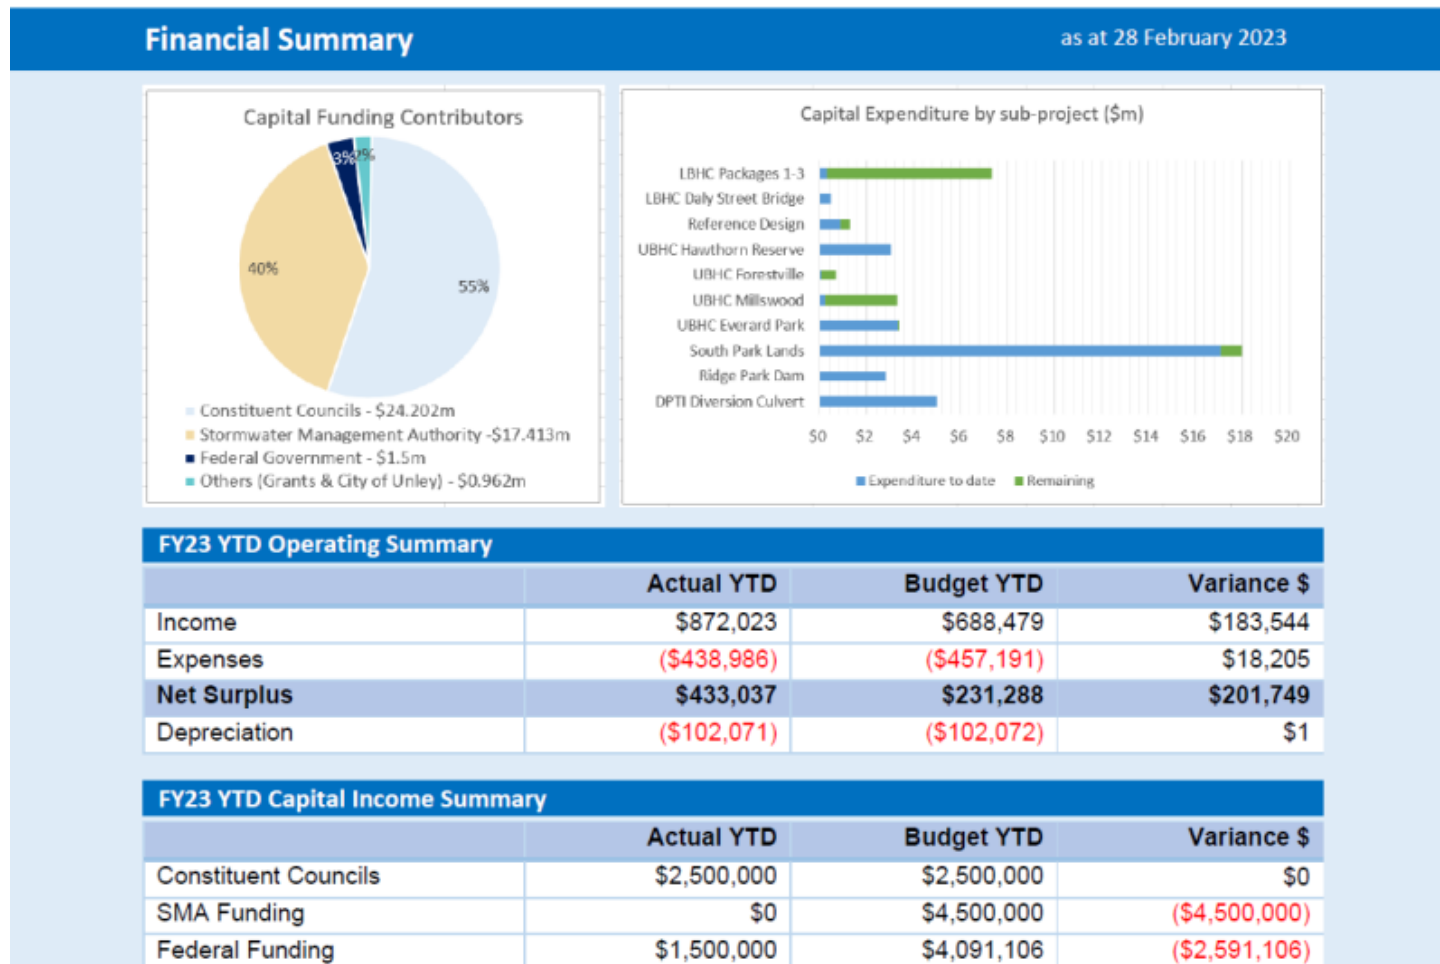

The Subsidiary has a shared vision of becoming 'water sensitive cities' by

- minimising flooding
- harnessing the potential of stormwater to overcome water shortages,
- improve waterway health,
- enhance city landscapes
- be utilised as a valuable community resource.

The vision is underpinned by six key objectives for Adelaide stormwater management:

- Protection from flooding
- Quality of runoff and effect on receiving waters
- Beneficial reuse of stormwater runoff
- Protection of watercourses and riparian ecosystems
- Effective planning outcomes
- Management of stormwater infrastructure

- The Brown Hill and Keswick Creeks Stormwater Board Project Update (March 2023) is available at [Link 1](#).
