

Incentives for Sustainability Program Operating Guidelines

13 February 2024

Council

PURPOSE

This Operating Guideline has been prepared to support City of Adelaide (CoA) employees to ensure consistency in administering grants and incentives delivered to support sustainability outcomes, including low carbon, circular economy, greening and biodiversity outcomes. These programs are typically run by the Park Lands and Sustainability and the Low Carbon and Circular Economy Teams.

This Operating Guideline has been separated into two sections:

1. Grants Operation
2. Incentives Operation

GRANTS OPERATION

Strategic Context

Sustainability Program Grants may be used by the City of Adelaide to support priorities and actions outlined in the City of Adelaide's strategic documents related to sustainability, climate and circular economies.

Objectives

Objectives for individual grant programs will be listed in public facing guidance and terms and conditions documentation. Objectives must clearly link to a strategic outcome or priority area related to sustainability, climate or circular economies.

Eligibility

Eligibility for individual grant programs will be listed in public facing guidance and terms and conditions documentation. Eligibility criteria will clearly state who is eligible and who is ineligible for the specific program.

Applications in any grant program will be ineligible if any of the following apply:

- The applicant undertakes canvassing or lobbying of councillors or employees of the City of Adelaide in relation to their grant application during the application and assessment process;
- The application does not meet the identified priorities;
- The application will contravene an existing City of Adelaide Policy or Operating Guideline;
- Applicants are yet to acquit on any previous Council funding or finalise outstanding debts to Council.

Current Council employees or former employees who ceased employment less than six months before applying and who are residents are eligible to apply for funding.

The City of Adelaide acknowledges the Kurna people as the Traditional Owners of the Country where the city of Adelaide is situated, and pays its respect to Elders past, present and emerging.

INCENTIVES FOR SUSTAINABILITY PROGRAM OPERATING GUIDELINES

Applicants that have received funding from other grants are not precluded from receiving funding from SIS.

Applicants may be eligible for funding more than once per year.

Assessment Criteria

To support decision-making, a set of assessment criteria will be developed for each category within individual grant programs and will be included in the relevant public facing documentation. Assessment criteria should include at a minimum:

CRITERIA	WEIGHTING
Strategic alignment with the priorities of the grant	15%
Cultural, social, and environmental outcomes	15%

Other criteria should be specific to the individual grant's objectives.

Application and Approval Process

Applicants seeking funding can apply by submitting an application form within the advertised timeframes through online submission via Smart Grants.

Once submitted, an application will be assessed according to:

- The eligibility criteria;
- Assessment criteria; and
- Available funding.

Where an application is incomplete or inaccurate, the applicant will be contacted and asked to supply additional information.

City of Adelaide understands that formal application and acquittal processes are not accessible and available for everyone and will provide support to individuals or groups to ensure the Sustainability Program Grants are fair and accessible.

Roles and Responsibilities

Sustainability Program Grants will be organised and run by specific officers within the Park Lands and Sustainability and the Low Carbon and Circular Economy Teams.

The Climate Change Coordinator is responsible for supporting the specific officers in setting up and managing the SmartyGrants system. Each officer will organise an assessment panel when required for their specific grant program.

Administration aims to provide all applicants with the opportunity to access support and feedback while considering the application to the Sustainability Program Grants.

Council is committed to creating opportunities for collaboration and encourages applicants and Administration to work together to ensure that shared outcomes can be achieved.

Decision Making

Based on the identified program priorities, eligibility criteria and assessment guidelines, Administration will assess each application received as part of the Sustainability Program Grants and refer funding recommendations up to the value of \$50,000 (excluding GST) for a single application to the Manager of the relevant team (Park Lands and Sustainability or Low Carbon and Circular Economy) or appropriately delegated officer.

Funding recommendations in excess of \$50,000 will be presented to Council for decision.

Funding Source

Funding for the Sustainability Program Grants is subject to the City of Adelaide's Annual Business Plan and Budget annually. All grant funds will be allocated, administered and managed in a responsible and transparent manner. Approved grants will not exceed the annual budget. We have considered other funding sources available to avoid duplication.

Notification and Payment

All applicants will be notified in writing of the outcome of their application.

All successful applicants will be required to:

- Provide to City of Adelaide a copy of their organisation's Public Liability Insurance "Certificate of Currency" (minimum \$20 million) where relevant;
- Provide to City of Adelaide relevant details for Electronic Funds Transfer of grant monies;
- Sign a funding agreement detailing the grant's terms and conditions.

Funding Acquittal

All successful applicants (including multi-year funding commitments) will be required to provide a detailed written report on all outcomes of the project funded by City of Adelaide in the form of an acquittal report document (a template will be provided). For multi-year commitments, applicants will be required to set the acquittal year during the application process. If a project spans more than one year, a project update will be required at the end of each year. Acquittal reports will be required within 6 weeks from the conclusion of each project or annually for multi-year funding commitments. Applicants may also be required to present, promote and share their successful grant projects with the local community and/or other grant recipients.

Key Performance Indicators

Key measures of performance for the Sustainability Program Grants will be;

- Alignment of funding with the City of Adelaide Strategic Plan and any other identified strategic priorities;
- Impact on sustainability measures, including but not limited to reductions in greenhouse gas emissions, increases in resource recovery and improvements in biodiversity;
- Funded projects are successfully completed within funding agreement and a report and acquittal is submitted at the end of the project;

INCENTIVES FOR SUSTAINABILITY PROGRAM OPERATING GUIDELINES

- Funded applicants achieve the stated outcomes;
- Annual promotion of Grants Program;
- Total amount of City of Adelaide funding distributed annually and total matched funds to measure return on investment.

Monitoring and Implementation

The performance of the Sustainability Program Grants will be monitored through the administrative and financial systems of City of Adelaide.

INCENTIVES OPERATION

Strategic Context

The City of Adelaide's Incentives for Sustainability Program are a primary driver for community action to support priorities outlined in the City of Adelaide's strategic documents related to sustainability, climate and circular economies.

Incentives for Sustainability is currently the culmination of two separate incentive schemes. The Sustainability Incentive Scheme, running in its current form since 2015, and the Circular Economy Incentives, established in 2023.

Objectives

The objectives of the Incentives for Sustainability Program are:

- **Carbon emissions reduction** – support an overall reduction of carbon emissions
- **Growing renewables** – increase smart utilisation and storage of renewable electricity during peak supply periods
- **Zero emissions transport** - accelerate transport decarbonisation to capture economic opportunities
- **Driving Circular Economy** – eliminate food waste and increase resource recovery
- **Climate Readiness** – support increased resilience within the city through increasing water efficiency, improving greenery, and reducing tree canopy loss
- **Equity, access, and affordability** – accelerate uptake of sustainable technologies, practices, and initiatives in an equitable and financially responsive way
- **Innovation, environmental leadership and emerging technologies** – catalyse early adoption, benchmark certification and enhance consumer choice
- **Minimal administrative burden** – ensuring incentives are relatively simple to assess and provide a transparent application process

Eligibility

The General Eligibility Criteria below apply to every available incentive.

- The property must be located within the City of Adelaide municipal area.
- Acquittals must be submitted within 12 months of project completion.
- Incentive funding is subject to City of Adelaide's annual budget processes and funding is limited.

- City of Adelaide reserves the right to cease incentives at any time without notification and applications are not guaranteed to receive funding (except where pre-commitment has been approved and activated).
- Eligibility of specific products or services is at City of Adelaide's discretion. City of Adelaide reserves the right to reject any applications.
- Rebates will be applied to the out-of-pocket installation or service cost incurred by the owner, occupier of the premise or body corporation, after all other incentives, grants, rebates, and discounts received have been deducted.
- The applicant acknowledges and agrees that the City of Adelaide accepts no liability in respect of any claim, cause of actions, loss or damage arising out of, or in relation to, any device purchased, or service procured under the incentives.
- Sustainability measures/devices supported through the incentives must be installed by appropriately licensed and accredited installers, and maintained in accordance with any relevant guidelines, and in a manner which does not pose risks to the health or welfare of any person.
- Where a Development Application (DA), is required, a rebate will be provided once the DA is granted, the system is installed according to the conditions set out in the DA, and the relevant paperwork is submitted.
- If approved, it may take City of Adelaide up to 30 working days to pay the rebate.
- City of Adelaide may request provision of information associated with the project including data for the preparation of a public facing case study.
- If the location for installation of a device supported through the incentives is within a strata or community title property, proof of the approval to install the device from the body corporate or equivalent must be provided with the application. (Refer to the relevant Strata Agreement).
- If a tenant is applying for a reimbursement, a written letter of permission from their landlord must be provided with their application to be eligible for the rebate.

Current Council employees or former employees who ceased employment less than six months before applying and who are residents are eligible to apply for funding. Applicants that have received funding from other grants are not precluded from receiving funding from SIS.

Applicants may be eligible for funding more than once per year.

INCENTIVES FOR SUSTAINABILITY PROGRAM OPERATING GUIDELINES

Each incentive also has its own specific eligibility criteria as defined in **Appendix A**.

Eligible Entities for specific incentives

Application and Approval Process

Applicants seeking funding can apply by submitting an application form within the advertised timeframes through online submission via Smart Grants.

Once submitted, an application will be assessed according to:

- The eligibility criteria; and
- Available funding.

Where an application is incomplete or inaccurate, the applicant will be contacted and asked to supply additional information.

The majority of applications will be processed post-project completion (once the applicant has paid in full), however pre-commitments are required for any applicant of the following rebates:

- Shared Solar
- Energy Smart Buildings
- Commercial Green Waste Diversion
- Business Sustainability Training Support

- Home Energy/Sustainability Assessments other than Residential Energy Scorecard Assessments
- Hard Waste Collection – Making Space for Resource Recovery
- Suppliers of Reusable Delivery Transport Containers
- Initial Purchase of Reusable Delivery Transport Containers
- Commercial Dishwasher.

A pre-commitment may also be available for projects that the Administration considers meet one of the following:

- Require the approval of a third party and involve higher levels of project management.
- Offer greater community demonstration potential.
- Engage multiple households or tenancies in a building.
- Involve participation of Commonwealth concession card holders or tenanted properties.

Administration will not pre-commit more than 75% of unallocated funding at any time in a financial year.

Where pre-commitments are approved, final payment is subject to meeting all requirements of the incentive with project completion within three months, or other such time as agreed in writing by City of Adelaide.

Council understands that formal application and acquittal processes are not accessible and available for everyone and will provide support to individuals or groups to ensure the Sustainability Program Grants are fair and accessible.

Roles and Responsibilities

The Climate Change Coordinator is responsible for administering the Incentives for Sustainability Program. Administration aims to provide all applicants with the opportunity to access support and feedback while considering the application to the Incentives for Sustainability Program. Council is committed to creating opportunities for collaboration and encourages applicants and City of Adelaide to work together to ensure that shared outcomes can be achieved.

Decision Making

Based on the above program priorities, eligibility criteria and assessment guidelines, City of Adelaide will assess each application received as part of the Incentives for Sustainability Program and refer funding recommendations up to the value of \$50,000 (excluding GST) for a single application to the Manager of the relevant team (Park Lands and Sustainability or Low Carbon and Circular Economy) or appropriately delegated officer.

Funding recommendations in excess of \$50,000 will be presented to Council for decision.

INCENTIVES FOR SUSTAINABILITY PROGRAM OPERATING GUIDELINES

Funding Source

Funding for the Incentives for Sustainability Program is subject to the City of Adelaide's Annual Business Plan and Budget annually. All incentive funds will be allocated, administered and managed in a responsible and transparent manner. Approved incentives will not exceed the annual budget. We have considered other funding sources available to avoid duplication.

Notification and Payment

All applicants will be notified in writing of the outcome of their application. All successful applicants will be required to provide to City of Adelaide relevant details for Electronic Funds Transfer of grant monies.

Funding Acquittal

All successful pre-commitment applicants will be required to provide final outcomes of the project funded by City of Adelaide in the form of an acquittal report document (a template will be provided). Acquittal reports will be required within 6 weeks from the conclusion of each project.

All applicants may also be required to present, promote and share their successful grant projects with the local community and/or other grant recipients.

Key Performance Indicators

Key measures of performance for the Incentives for Sustainability program will be;

- Applications received and approved by type of incentive and month
- Total amount of funding distributed annually and total matched funds to measure return on investment.
- Overall investment ratio (total investment/ rebates) since 2015
- Impact on sustainability measures, including but not limited to;
 - Reductions in greenhouse gas emissions
 - Energy efficiency improvements
 - Total Solar PV installed
 - Total Energy Storage (kWh) installed
 - Total EV Charging Stations installed
 - Average EV Charging Station Capacity (kW)
 - Total Rainwater Storage (L) installed
 - Increases in resource recovery
 - Increases in biodiversity.

Monitoring and Implementation

The performance of the Incentives for Sustainability Program will be monitored through the administrative and financial systems of City of Adelaide.

City of Adelaide is committed to regular review of the Incentives for Sustainability Program to ensure City of Adelaide is providing relevant incentives to encourage our community to transition to a climate ready, low carbon and circular economy, consistent with industry and market trends. Recommendations from these reviews will be presented to Council for consideration.

OTHER USEFUL DOCUMENTS

Related documents

- Public facing guidance and terms and conditions documents
- How to for SmartyGrants and payments

Relevant legislation

- *Local Government Act 1999 (SA)*
- *City of Adelaide Act 1998 (SA)*

APPENDIX A

Incentives for Sustainability Program Specific Eligibility Criteria

The tables below provide an overview of eligibility for each individual incentive and provide examples of what would be ineligible for each incentive currently available through the Incentives for Sustainability Program.

Residential Solar PV	Eligible	Ineligible
Categories and Descriptions	<ul style="list-style-type: none"> • 20% up to \$1,000 – ≥1.5 kW to <10 kW Solar PV System • 20% up to \$2,500 – 10kW to < 20kW Solar PV System • 20% up to \$5,000 – ≥20 kW Solar PV System 	<ul style="list-style-type: none"> • <1.5kW Solar PV System
Entities	<ul style="list-style-type: none"> • Houses (Tenanted) • Houses (Commonwealth Concession Card Holders) • Residential Strata/Community/Body Corporation Buildings Shared Use areas or individual tenants • Not-for-profit Community or Sporting Facilities 	<ul style="list-style-type: none"> • Houses (Owner Occupied) • Small to Medium Enterprises • Multistorey Commercial properties
Limits	maximum of one application per retail electricity meter (National Meter Identifier – NMI).	Multiple applications per retail electricity meter (NMI)
Power Purchase Agreements	Solar PV systems purchased on a solar lease or power purchase agreements are eligible if the outright ownership is vested with the property owner or tenant at the end of the contracted term.	Solar PV systems purchased on a solar lease or power purchase agreements where outright ownership is vested with an external third party at the end of the contracted term.

Business Solar PV	Eligible	Ineligible
Categories and Descriptions	<ul style="list-style-type: none"> • 20% up to \$1,250 – 10kW to < 20kW Solar PV System • 20% up to \$2,500 – ≥20 kW Solar PV System 	<ul style="list-style-type: none"> • <1.5kW Solar PV System • ≥1.5 kW to <10 kW Solar PV System
Entities	<ul style="list-style-type: none"> • Small to Medium Enterprises • Multistorey Commercial properties 	<ul style="list-style-type: none"> • Houses (Owner Occupied) • Houses (Tenanted) • Houses (Commonwealth Concession Card Holders) • Residential Strata/Community/Body Corporation Buildings Shared Use areas or individual tenants • Not-for-profit Community or Sporting Facilities
Limits	maximum of one application per retail electricity meter (National Meter Identifier – NMI).	Multiple applications per retail electricity meter (NMI)
Power Purchase Agreements	Solar PV systems purchased on a solar lease or power purchase agreements are eligible if the outright ownership is vested with the property owner or tenant at the end of the contracted term.	Solar PV systems purchased on a solar lease or power purchase agreements where outright ownership is vested with an external third party at the end of the contracted term.

INCENTIVES FOR SUSTAINABILITY PROGRAM OPERATING GUIDELINES

Shared Solar	Eligible	Ineligible
<p>Categories and Description</p>	<ul style="list-style-type: none"> • A maximum rebate of up to \$20,000 per site comprising of: <ul style="list-style-type: none"> ○ Up to \$500 per premise connected to the shared solar PV system; and ○ No more than 20% of system costs. • Only for the sharing of solar electricity between tenants in multi-storey premises (>20 kW). More than 25% of power generated must be shared to individual tenants, not common areas. • Demonstrated governance and billing systems in place to distribute >25% of annual solar generation to tenants' electricity usage. <p>The number of premises will be determined based on the net lettable area divided by 500m²</p> <p>Pre-commitments required</p>	<ul style="list-style-type: none"> • Solar PV Systems 20 kW or less. • Solar PV Systems where more than 75% of generated power is used in common area. • Solar PV Systems where governance systems are not in place for the formal distribution of solar between individual tenants. • Solar PV Systems installed on single-storey premises, including strata
<p>Entities</p>	<ul style="list-style-type: none"> • Multistorey Commercial properties • Multistorey Residential Strata/Community/Body Corporation Buildings <p>Premise must be multi-storey, with a premise located above another premise, and may include embedded networks or</p>	<ul style="list-style-type: none"> • Houses (Owner Occupied) • Houses (Tenanted) • Houses (Commonwealth Concession Card Holders) • Single-storey Residential Strata/Community/Body Corporation Buildings

	other technology-based solutions.	<p>Shared Use areas or individual tenants</p> <ul style="list-style-type: none"> • Small to Medium Enterprises • Not-for-profit Community or Sporting Facilities
Limits	Maximum of one application per retail electricity meter (National Meter Identifier – NMI).	Multiple applications per retail electricity meter (NMI)
Power Purchase Agreements	Solar PV systems purchased on a solar lease or power purchase agreements are eligible if the outright ownership is vested with the property owner or tenant at the end of the contracted term.	Solar PV systems purchased on a solar lease or power purchase agreements where outright ownership is vested with an external third party at the end of the contracted term.

INCENTIVES FOR SUSTAINABILITY PROGRAM OPERATING GUIDELINES

Energy Storage	Eligible	Ineligible
Categories and Description	<ul style="list-style-type: none"> • 50% up to \$2,000 – Battery Energy Storage System • The system must be installed to optimise internal electricity consumption and not be configured as a mains electricity supply back-up system only. • Costs associated with the energy storage system equipment and installation only. 	<ul style="list-style-type: none"> • Energy Storage Systems configured as a mains electricity supply back-up system only. • Additional costs such as switchboard upgrades.
Entities	<ul style="list-style-type: none"> • Small to Medium Enterprises • Multistorey Commercial properties • Not-for-profit Community or Sporting Facilities 	<ul style="list-style-type: none"> • Houses (Owner Occupied) • Houses (Tenanted) • Houses (Commonwealth Concession Card Holders) • Residential Strata/Community/Body Corporation Buildings
Limits	maximum of one application per retail electricity meter (National Meter Identifier – NMI).	Multiple applications per retail electricity meter (NMI)
Power Purchase Agreements	Energy Storage Systems purchased on a lease or power purchase agreements are eligible if the outright ownership is vested with the property owner or tenant at the end of the contracted term.	Energy Storage Systems purchased on a lease or power purchase agreements where outright ownership is vested with an external third party at the end of the contracted term.

Energy Monitoring	Eligible	Ineligible
<p>Categories and Description</p>	<ul style="list-style-type: none"> • 50% up to \$100 – stand-alone energy monitoring display installed on a premise with no solar PV or battery system. <p>The energy monitoring system must provide real-time energy monitoring of mains power consumption for the premise.</p>	<ul style="list-style-type: none"> • Energy Monitoring System installed on a premise with existing solar PV or battery system. • Smart electricity (utility) meters
<p>Entities</p>	<ul style="list-style-type: none"> • Houses (Owner Occupied) • Houses (Tenanted) • Houses (Commonwealth Concession Card Holders) • Residential Strata/Community/Body Corporation Buildings • Small to Medium Enterprises • Multistorey Commercial properties • Not-for-profit Community or Sporting Facilities 	
<p>Limits</p>	<p>Eligible Residential, Business, Community and Sporting Premises – maximum of one application per rateable, rate exempt or rate rebated premise.</p> <p>Building Owners, Community Corporations and Body Corporates – maximum of one application per site record</p>	<p>Multiple applications per rateable, rate exempt or rate rebated premise, or site record</p>
