Feedback Summary

The Your Say page offered the opportunity for respondents to provide comments to support their choice. The below table illustrates these responses.

Looks like a fantastic proposal.
The proposal and development look sound. It will bring people and commercial activity to an underdeveloped area.
I am entirely supportive of the proposed 21-year-lease agreement to the tenant as outlined. The significant investment proposed by the tenant warrants the lease term in order to make the project commercially viable, and to allow it to have (and grow) the desired positive impacts on the community. I look forward to seeing the benefits of this opportunity and investment.
The plan proposes ongoing public accessibility. The toilets are very much needed and a deck over the lake is a welcome improvement. As long as the shady trees and public access is maintained I support the lease arrangements.
I love seeing new projects come to life that will boost the local economy.
Stability, to gain back a kiosk/cafe outlet.
If the CPH Group proposal isn't a success within the first two years, they should have the lease agreement revoked and given to another operator.
I have missed the kiosk very much, as a destination to tricycle to, as an older person. I only wish the process could be quicker. it is also on the route between my home in Halifax St and my studio in Kent Town, and very convenient for a meal/coffee on the way, apart from being an ideal destination in itself.
Amazing. Can't wait.

This has been a dead spot in our parklands for so long. The park is beautiful but doesn't get as much use as it should. This proposed development is considerate of maintaining the park lands while adding to their potential use.

I fully support.

No, the cafe should be demolished, and any cafes should be portable pop-ups.

It will be great for the city and east end of Adelaide.
It will attract many people to the area and will create a great venue and space.
Adelaide is lacking these types of venues in particular to a location such as this.

This area needs the kiosk up and running again and the plans proposed sound amazing. We should be supporting long term leases like this in our beautiful city to ensure longevity if these establishments.

This is a great idea to bring some life into Rymill Park and creates more job opportunities as well.
