

MOTION ON NOTICE

Councillor Janet Giles will move a motion and seek a seconder for the matter shown below to facilitate consideration by the Council:

1. Council acknowledges the unique challenges in the western side of the city in meeting our strategic plan actions of delivering “neighbourhood revitalisation and improvements that make Adelaide well-designed, safe and unique.” particularly considering the current number of high-rise apartments, the approved plans for future developments which involve a further increase of high rise and apartment living, and plans for a further substantial increase of population in the western side of the city.
2. Council further recognises the current lack of community amenities, green space and tree cover in this area and the opportunity to develop a “bold and interesting community” in this largely undeveloped part of our city.
3. Council requests administration to provide to the April City Community Services and Culture Committee meeting a draft proposal for the establishment a community advisory committee of people who bring local knowledge and ideas and are prepared to champion the west as a safe, supportive, connected community with a strong unique culture.
