Purpose of Workshop

The purpose of this workshop titled “Bringing Back Platypus” is to discuss opportunities for water management in the Park Lands with Chris Daniels, Green Adelaide Presiding Member.

Kadaltilla is dedicated to maintaining and improving climate resilience and the landscape values of the Adelaide Park Lands. Objective 2.6 in the [Kadaltilla Strategic Plan 2023-2028](#) is “*Improved Irrigation and Water Management across the Park Lands*”. As a key partner in delivering outcomes to benefit the Adelaide Park Lands, Green Adelaide has been invited to present to Kadaltilla on opportunities for water management.

This is an opportunity for the Kadaltilla Board to engage with the Green Adelaide from a Park Lands context.
