## Draft Public Lighting and Electrical Infrastructure Asset Management Plan

Your Say  
Adelaide

### ENGAGEMENT SUMMARY

Formal consultation on City of Adelaide's draft Public Lighting and Electrical Infrastructure Asset Management Plan occurred between 2 April 2024 and 10 May 2024.

Community consultation included a Your Say Adelaide engagement page in conjunction with two drop-in sessions that were held at the Hutt Street Library (23 April, 12 noon - 2 pm) and the North Adelaide Library on Tynte Street (24 April, 10am - 12 noon).

Notification of the public consultation was announced through the Government Gazette and a Public Notice in the Advertiser, as well as advertised through physical and electronic promotion through City of Adelaide platforms including signage at community centres and social media campaigns.

#### **Your Say Survey**

The Your Say Adelaide community engagement platform provided an overview of what Asset Management is as well as the purpose of the Asset Management Plan. Additionally, it highlighted the journey that has been undertaken to date in the development of the draft Asset Management Plans, which included:

- Preliminary engagement with our community to better understand and measure levels of satisfaction for the services provided by our assets.
- Identifying where current levels of service are not meeting the community's expectation, to then enable recommendations to be made to Council regarding how our assets are managed into the future through the development of the draft Asset Management Plans.

We have used the insights from the community to develop the draft Public Lighting and Electrical Infrastructure Asset Management Plan and through the final consultation, asked the question, did we get it right?

Through the Your Say Adelaide engagement page and two drop-in sessions, we received:

- 670 visitors to the Your Say Adelaide landing page (for all six AM Plans)
- 10 visitors who viewed the feedback form
- 1 survey responses

Respondents were prompted to provide demographic information, which is summarised below:

#### **Ratepayers:**

1 survey respondents identified as ratepayers within the City of Adelaide (100%)

0 survey respondents identified as a non-ratepayer (0%)

**Ratepayer, 100%**

### Drop-In Sessions

From the drop-in session held at the North Adelaide Library on Tynte Street, there was one verbal conversation with a member of the community in relation to the Public Lighting and Electrical Asset Management Plan. Feedback was received that while they were supportive of the Plan, there was a specific street in North Adelaide where they believed public lighting levels could be improved.

This location is a known service deficiency currently identified within the Asset Management Plan, with respect to low levels of lighting withing a street where South Australian Power Networks public lighting assets are installed.

The asset management plan identifies opportunities to improve lighting levels at these locations by working with SAPN to install LED luminaires (newer and better technology).

## YOUR SAY ADELAIDE ENGAGEMENT SUBMISSIONS

Respondent	Do you support the adoption of the AM Plan?	Comments	Response
Respondent 1 (29/04/24)	Yes	There are elements of the city that have great lighting and pockets that do not. Having a Lighting and Electrical Asset Management Plan makes it clear to residents what the city has prioritised and sets a vision for distributing asset management equally.	-
