Adelaide Economic Development Agency (AEDA)

The Adelaide Economic Development Agency Charter identifies the objectives and purposes of the Agency as:

- To accelerate economic growth in the City of Adelaide by attracting investment and supporting businesses, festivals and events, as well as visitor, student and residential growth.
- To promote the City of Adelaide as a destination and 'magnet city' to increase its visitation and use by residents, workers, visitors and the community.
- To position the Rundle Mall as the State's premier retail and commercial shopping precinct to sustain retail, business and economic viability.
- To ensure that the Agency operates within the terms of its Charter and the Council's Strategic Plan.

AEDA's functions include:

- Work collaboratively with the State Government, strategic partners, peak bodies and key stakeholders and avoid duplication of effort in the delivery of its functions and duties.
- Position the City of Adelaide as an attractive investment opportunity for commercial and residential property development.
- Support the growth and development of existing businesses and attract new businesses, industries and entrepreneurs to the City of Adelaide.
- Promote and market the City of Adelaide to local, interstate and international visitors and investors.
- Position and promote the City of Adelaide as Australia's premier festival and event destination, with the aim of increasing visitation and investment.
- Attract and support growth of the visitor economy, including international students, festivals, events, conferences, conventions and exhibitions.
- Activate, promote and market Rundle Mall.
- Promote and develop mainstreet precincts as commercial hubs of economic, cultural and social significance.

The agency operates within the geographic boundary of the City of Adelaide but, reflecting Adelaide's capital city role, collaborates with organisations from outside this area on programs that deliver mutual benefit. The Rundle Mall Levy is spent on marketing and activating the area bounded by North Terrace, King William Street, Grenfell Street and Pulteney Street.

This Business Plan and Budget identifies AEDA's priorities in 2026/27 and addresses the Agency's obligations under section 6.2 of the AEDA Charter to produce an annual business plan and budget for the ensuing financial year.

Current Advisory Committee Members are Jasmin Ilic, Angela Maglieri, James Black, Mirella Romano, Paula Mifsud and Nikki Hamdorf (Precinct groups representative).

Structure and Funding of the Agency

The Agency consists of 31.6 FTEs led by a General Manager. Three senior staff members report to the General Manager with respective responsibilities for marketing and visitor economy, Rundle Mall and business growth, investment attraction and event sponsorship.

AEDA is funded through an appropriation from the City of Adelaide, and from funds raised through the Rundle Mall Differential Separate Rate. The rate is levied by Council on ratable land in the Rundle Mall Precinct. Funds from the separate rate will be expended specifically and only to support the delivery of the marketing plan, actions and operation of the Rundle Mall Precinct and not the broader city.

Economic Outlook

The City of Adelaide's economy has continued to demonstrate resilience as South Australia's primary centre for business, higher education, innovation, cultural institutions, hospitality, retail and major events.

The number of businesses and people working in the city has continued to grow. Hotel occupancy is strong. However there are challenging headwinds. Cost of living pressures continue. The conflict in the Middle East has resulted in sharply higher fuel prices, which, if sustained, will add to inflation placing upward pressure on interest rates, as well as leading to calls to increase the level of working from home activity.

A significant pipeline of construction activity is set to shape the City of Adelaide across 2026-27. Several landmark projects will be completed while new developments commence, supporting both short-term activity and long-term precinct renewal.

Major projects include:

- Five new hotels completed or underway: Veriu Adelaide, Crystalbrook Sam, Treehouse Hotel at Market Square, Little National Hotel and Oakwood Premier.
- The Lot Fourteen Innovation Centre, reinforcing Adelaide's reputation as a growing national hub for space, defence, AI and research.
- The new Women's and Children's Hospital, one of the state's most significant long-term health infrastructure commitments.
- Mainstreet upgrades improving amenity and vibrancy and essential infrastructure upgrades to key visitor precincts. Noting short-term foot traffic, communication and business expectations will need to be closely managed.
- The Adelaide Central Market Arcade redevelopment transitioning into operational stages, providing new retail, commercial and hospitality opportunities.

- Several residential projects, including student accommodation.

Together, these projects will attract construction workers, stimulate surrounding retail/hospitality trade, and deliver upgraded precincts that enhance the city's competitiveness.

Macroeconomic Landscape

The macroeconomic landscape has changed since the end of 2025. The conflict in the Middle East impacting fuel prices, upward pressure on inflation, an environment in which interest rates are more likely to rise than fall have created a more volatile economic environment. This is being reflected in surveys of business and consumer confidence. This places continued pressure on discretionary spending, potentially slowing demand in retail, hospitality, events and the night time economy.

However, South Australia's broader economic fundamentals remain relatively strong. State Final Demand growth has been among the highest in the country, supported by business investment, dwelling construction and strong labour market participation. Employment remains near historic highs, which supports daytime city visitation and workforce activity.

Continuing momentum around AUKUS and defence investment is a major economic driver. Increased funding and associated private-sector activity are expected to stimulate growth across defence technology, advanced manufacturing, cyber, engineering and professional services — sectors heavily concentrated in the CBD. This presents significant opportunity for spillover economic activity, collaboration and high-skilled employment.

Visitor Economy

Adelaide has transitioned into a premier global destination, with new air routes, new events, new hotels and greater awareness of what the city has to offer. With all pre-pandemic international air routes restored and new direct links opening to hubs like San Francisco, Shanghai and Guangzhou, inbound aviation capacity has increased by 32%, bringing opportunity for new inbound markets to South Australia. This infrastructure supports a high-yield visitor profile, driving CBD hotel revenue to record highs (exceeding \$100 million per quarter) and fuelling the demand for new luxury stays.

Major events, festivals and conventions remain critical drivers of visitation and spend, with the calendar delivering a year-round engine of growth. High-impact anchors like AFL Gather Round, LIV Golf and the Adelaide Festival (which recently saw a 40% jump in interstate/international visitors) are complemented by a booming business events sector. With delegates spending an average of \$1,600 per visit, Adelaide is strategically positioned to maximise the economic returns of a globally connected, modern tourism landscape.

The moderating influences are uncertainty regarding the Middle East situation on people's desire to travel internationally and cost of living pressures impacting people's decisions to travel domestically.

Business and Workforce Growth

Adelaide continues to experience steady growth in both business numbers and jobs located in the city.

A broader trend is emerging within professional services, tech firms and corporate offices who are increasingly choosing CBD locations for talent attraction/retention. This is expanding Adelaide's high-skilled workforce and reinforcing the role of the city as the state's economic centre.

However, within the current environment, working from home is being promoted by various organisations as a tool to manage cost and energy pressures. This raises concerns about an impact on economic activity levels within the City of Adelaide.

Population growth continues to be a major contributor to Adelaide's economic performance. Net overseas migration remains strong, supported by Australia's relative attractiveness and labour market opportunities, and South Australia's rising profile as a lifestyle-oriented state. Adelaide is receiving increasing numbers of skilled migrants and working holiday makers, both of which are key to supporting labour supply in hospitality, health, construction and professional services.

International student arrivals remain a significant driver of economic activity in the city. Adelaide's universities and vocational providers continue to attract students from Asia, South Asia and Europe, with enrolments rebounding strongly post-pandemic. These students contribute directly through tuition and living expenditure, but also indirectly by supporting city vibrancy, public transport use, hospitality demand and long-term workforce pipelines. The return of international students has strengthened daytime and evening economies and reinforced Adelaide's position as an education city.

Population and student growth, however, continue to place pressure on housing supply. While new apartment developments are in train, demand has outpaced supply across both Greater Adelaide and the City of Adelaide. Rising rent levels, low vacancy rates and cost pressures highlight the need for ongoing investment in residential development. Rental vacancy rates have eased, although remain at historic lows.

However, for the first time since the Covid recovery the State has seen a fall in international student commencements raising from federal government policy tightening, visa approval rates falling, a contraction in the vocational education and training and English-language sectors and higher costs.

Workforce policies to address the staffing challenges resulting from major projects, an ageing population and a robust economy will be important.

Future Outlook

The City of Adelaide, like other capital cities saw subdued growth in 2024/25 and 2025/26, as consumer spending softened under the backdrop of high inflation and interest rates. Cautious discretionary spending could continue into 2026/27.

Public and private investment, strong labour market conditions, visitor demand and large-scale developments will underpin growth. Key risks include persistent inflation, global uncertainty, and pressures on housing supply.

However, the city's growing economic diversification particularly in construction, professional services, research, technology, health and higher education provides a strong platform for sustained, long-term economic resilience.
