1. WHAT IS A COMMUNITY LAND MANAGEMENT PLAN

A Community Land Management Plan sets out Council's approach to using and managing community land on behalf of the community.

Under the [Local Government Act 1999 \(LG Act\)](#), in the City of Adelaide (CoA), "community land" is all local government land (except roads) that is under the care, control and management of the CoA, including the Adelaide Park Lands.

The CoA is required under [section 196 of the LG Act](#) and [section 19 of the Adelaide Park Lands Act 2005 \(APL Act\)](#) to prepare and adopt a management plan for community land.

2. ABOUT THIS COMMUNITY LAND MANAGEMENT PLAN

This document is the Community Land Management Plan (CLMP) for the Adelaide Park Lands, prepared in accordance with the LG Act and APL Act.

This CLMP is comprised of two main parts. The first (comprised of sections 1-10) provides information that applies to the Adelaide Park Lands system as a whole, while the second (section 11) provides park specific information about the management of individual parks.

This CLMP:

- Identifies the land to which it applies (see Section 3 and Section 11 of this CLMP)
- Sets out the purpose for which the land is held (see Section 5 and Section 11 of this CLMP)
- Sets out the objectives, policies and proposals for management of the Adelaide Park Lands (see Section 6, Section 9 and Section 11 of this CLMP)
- States performance targets and measures (see Section 6 and Section 11 of this CLMP)
- Provides the management and policy context (see Section 7, Section 8, Section 9 and Section 10 of this CLMP)
- Provides information on any restrictions to public use or movement through the Park Lands (see Section 11 of this CLMP), and
- Includes specific information on relevant policies for the granting of leases and licences (see Section 9.4 of this CLMP).

If there are inconsistencies between the park specific management statements (including purposes, objectives, targets and measures) and the overarching management statements, the park specific management statements take precedence.

[The CLMP for the Adelaide Oval Precinct remains a standalone document due to the inherent complexities introduced into the management of that Precinct by the Adelaide Oval Redevelopment and Management Act 2011 \(SA\) and the resulting Licence Area. A link to this document is provided here.](#)

This CLMP has been drafted to be consistent with the [Adelaide Park Lands Management Strategy 2015–2025 \(APLMS\)](#).

The APLMS is a strategic document that is required under the APL Act. **It establishes the high-level vision, objectives and [future management strategic directions](#) for the Park Lands.**

The APLMS is developed and maintained by Kadaltilla / Park Lands Authority and adopted by the CoA and the State Government.

Under [section 19\(1\) of the APL Act](#), this CLMP must be consistent with the APLMS. Accordingly, this CLMP responds to the vision, objectives and outcomes of the APLMS.

3. IDENTIFICATION DETAILS

The land to which this CLMP applies is the 'Adelaide Park Lands' as defined by the APL Act, through the [Park Lands Plan](#), and as outlined in Figure 1 and in the [Community Land Register](#). Individual parks in Section 11 are also identified by their Certificates of Title.

State-managed areas are excluded from this CLMP, equivalent requirements for State Authorities to develop management plans apply under [section 20 of the APL Act](#).

COMMUNITY LAND MANAGEMENT PLAN FOR THE ADELAIDE PARK LANDS

- Part of this CLMP — Adelaide Park Lands under the care, control and management of the Corporation of the City of Adelaide
- Not part of this CLMP — Adelaide Park Lands under the care, control and management of the Crown or a State Authority
- Not part of this CLMP — Not part of the Adelaide Park Lands (The city blocks, city streets, Parliament House & Government House)

** Note 1: The core area of Adelaide Oval is not subject to a CLMP
 ** Note 2: The River Torrens / Karrawirra Pari is community land and is part of this CLMP

Figure 1. Map of the Adelaide Park Lands to which this CLMP applies

4. SETTING THE CONTEXT

The Adelaide Park Lands are a much loved and nationally recognised park system which surround and permeate our city and are central to our identity.

4.2 Description of the Adelaide Park Lands

Today's Park Lands are based on those laid out in Colonel William Light's Adelaide Plan in 1837 and are very important to the identity of Adelaide and South Australia. Light laid out 930 hectares of Park Lands surrounding the city and North Adelaide.

Of this figure, today approximately:

- 723 hectares are dedicated open parks and squares with diverse cultural, recreational and natural values
- 116 hectares are occupied by institutions such as universities, hospitals and cemeteries
- 22 hectares are occupied by rail infrastructure
- 69 hectares form the roads through the Park Lands and car parks.

Approximately 675 hectares of the 723 hectares are managed by the CoA (including the River Torrens / Karrawirra Park and six squares), with the South Australian Government responsible for the remainder. **This CLMP covers those areas managed by the CoA.**

4.3 Kaurna cultural significance

The Adelaide Park Lands are part of the Adelaide Plains, which in turn are part of the traditional [Country of the Kaurna people, in which their lands extend from Cape Jervis to north of Crystal Brook](#)~~lands extending from north of Clare to Cape Jervis, South Australia.~~

[The Kaurna people](#) used and managed these lands for many thousands of years, prior to colonisation from 1837, and continue to possess strong cultural links to, and maintain their cultural practices with, the land.

In 2018, ~~the Kaurna Yerta Aboriginal Corporation, representing~~ the Kaurna people [were](#) granted Native Title [by the higher Courts](#) for 17 parcels of land within a greater determination area from Lower Light to Myponga, South Australia.

~~Although Native Title does not exist within the city and Adelaide Park Lands~~ [The CoA acknowledges that](#) [the Park Lands contain many sites of cultural significance to the Kaurna people and support their pursuit in protection of cultural heritage, practices and activities.](#)

4.4 Cultural heritage significance

The Park Lands have undergone continuous change since colonisation and contain many areas and landmarks of cultural heritage significance. CoA commissioned a [Cultural Landscape Assessment](#) (David Jones, 2007) to document how the landscape has been altered and influenced since European settlement. The assessment assisted in identifying and managing important areas and landmarks. Although there have been changes in many parts of the Park Lands since ~~this was produced~~ [the assessment was prepared](#), it remains an important collation of knowledge and has informed the preparation of this plan.

5. OVERALL PURPOSE FOR WHICH THE ADELAIDE PARK LANDS ARE HELD

The Adelaide Park Lands are a defining feature for the City of Adelaide. This section outlines the overall purpose for which the Adelaide Park Lands are held as community land.

PLEASE NOTE:

- The purposes for which the Adelaide Park Lands are held are not listed in any particular order.
- If there are inconsistencies between the purpose for which specific parks are held and the overall purpose, the park specific purposes take precedence.

5.2 Overall purpose for which the Adelaide Park Lands are held

Under [section 196\(3\)\(b\) of the LG Act](#), a CLMP must state the purpose for which the land is held.

The following purpose has been derived from statutory principles set out under [section 4\(1\) of the APL Act](#), in particular section 4(1)(b), (c), (d) (see Appendix [G-A](#) for the full list of these principles).

The purposes for which the Adelaide Park Lands (as a system) are held is:

- To provide benefit to the people of South Australia by being publicly accessible green open space
- To support a diverse range of environmental, natural heritage, cultural and social values and activities
- To support outdoor and community based recreational activities and events
- To provide a defining feature to the City of Adelaide
- To contribute to the economic and social wellbeing of the city.

In addition to the overall purpose for which the Adelaide Park Lands are held, each park **may** have a specific purpose for which it is held, outlined in the specific park management section (Section 11).

6. MANAGEMENT FRAMEWORK FOR THE ADELAIDE PARK LANDS

The management of the Park Lands is governed by the following framework, as shown in Figure 2 and described in Sections 8 and 9.

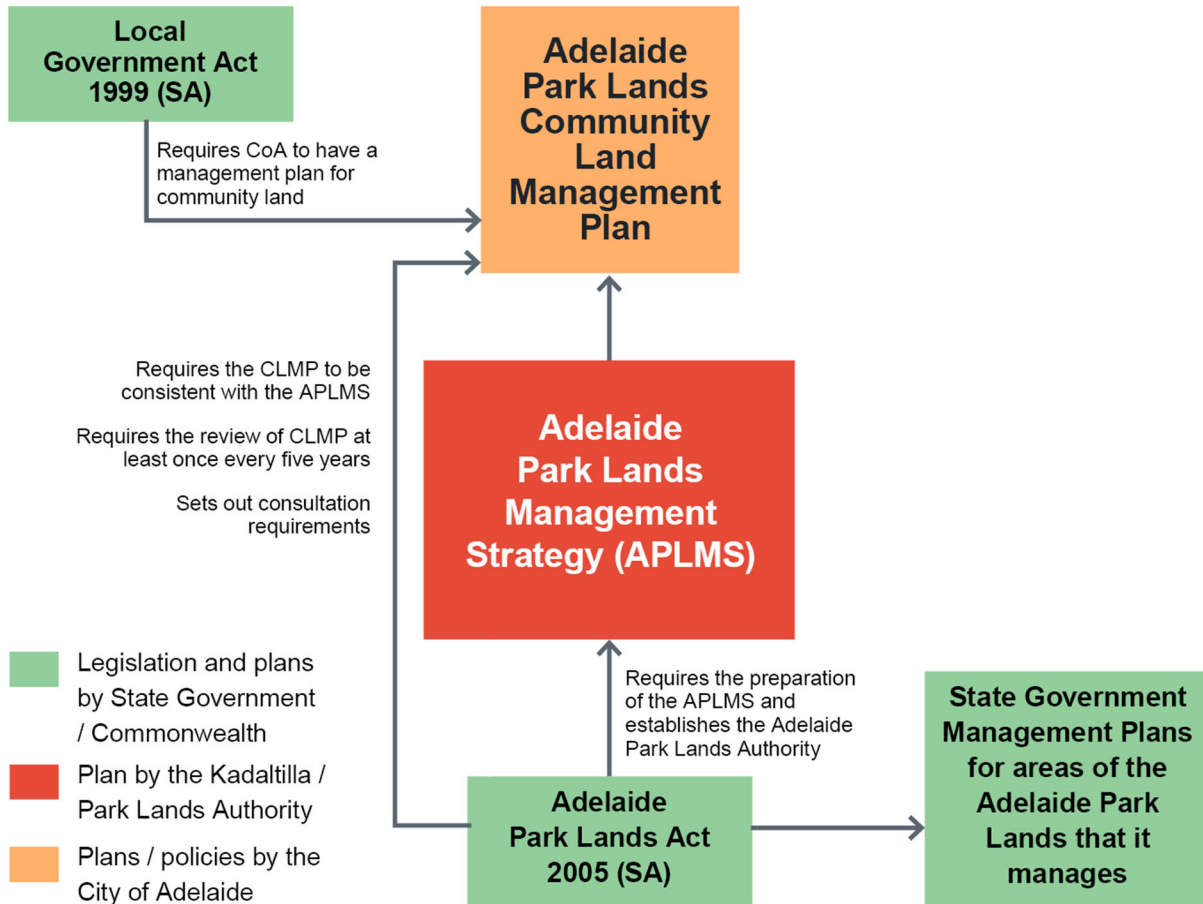

Figure 2. Adelaide Park Lands legislative and planning framework

6.2 Other contributors to the management of the Adelaide Park Lands

The management of the Park Lands involves participation by Kaurna through the following means:

- [Kadaltilla / Park Lands Authority](#)
- CoA's [Reconciliation Committee](#)
- Specific projects, developments and policies that impact the Adelaide Park Lands.

Volunteer groups assist in the management of the Park Lands, particularly in relation to the management of biodiversity areas and remnant vegetation.

Lease and licence holders also contribute to the upkeep, maintenance and provision of services in the Park Lands.

7. KEY LEGISLATION

7.2 Local Government Act 1999 (SA)

[The LG Act](#) requires Council to have a management plan for community land. **It provides for local government in South Australia and includes provisions relating to managing community land and the Park Lands.**

7.3 Adelaide Park Lands Act 2005 (SA)

[The APL Act](#) requires the preparation of a management strategy (the APLMS) and establishes the Adelaide Park Lands Authority / Kadaltilla Park Lands Authority. **It establishes a legislative framework that promotes the special status, attributes and character of the Adelaide Park Lands and management.** It also sets out requirements for the CLMP including consultation and review requirements, to be consistent with the APLMS.

7.4 National Heritage Listing under the Environment Protection and Biodiversity Conservation Act 1999 (Commonwealth)

The *Environment Protection and Biodiversity Conservation Act 1999* ([the EPBC Act](#)) is the Australian Government's key environmental and heritage protection legislation and establishes the National Heritage List. **The Adelaide Park Lands and City Layout is included on the National Heritage List** (Appendix [AB](#)). The Adelaide Park Lands and City Layout is listed because it is a significant example of early colonial planning and has retained key elements of its historical layout, including two major city areas separated by the River Torrens / Karrawirra Pari, the encircling Park Lands, six town squares and gardens, and a grid pattern of roads.

The EPBC Act obliges proponents of works to self-assess those works for potential impact on the national heritage values. If it is considered that the works could have a significant impact on the national heritage values, proponents are required to seek approval from the Minister for the Environment and Water.

A guide has been prepared regarding whether works are likely to have a significant impact on the national heritage values of the Adelaide Park Lands and City Layout (Appendix [BC](#)).

7.5 Planning, Development and Infrastructure Act 2016 (SA) and Planning and Design Code (SA)

The Planning, Development and Infrastructure Act 2016 ([the PDI Act](#)) provides the legislative framework for the development system in South Australia. **Works on the Park Lands that are defined as 'development', as per the PDI Act, require approval irrespective of the contents of this CLMP.**

[State Planning Policies](#) are the highest order statutory planning instrument in South Australia and provide the state-wide vision for South Australia's planning and design system.

The [Planning and Design Code](#) is a state-wide planning rulebook which contains Overlays, Zones, Sub-zones and General Development Policies. Together, these provide the rules that apply to a particular parcel of land against which an application for development will be assessed.

7.6 City of Adelaide By-laws

The [CoA By-laws](#) guide the management of the city's public realm including the Adelaide Park Lands. Relevant by-laws include the *Dogs By-law 2018* (for dog management), *Local*

Government Land By-law 2018 (for activities conducted on CoA land) and *Permits and Penalties By-law 2018* (for events and other activities).

7.7 Other relevant legislation

The Adelaide Park Lands may be subject to other legislation, including but not limited to:

• [Adelaide Oval Redevelopment and Management Act 2011](#)

• [New Women's and Children's Hospital Act 2022](#)

- *Aboriginal Heritage Act 1988*
- *City of Adelaide Act 1998*
- *Dog and Cat Management Act 1995*
- *Emergency Management Act 2004*
- *Environment Protection Act 1993*
- *Heritage Act 1993*
- *Heritage Places Act 1993*
- *Landscape South Australian Act 2019*
- *Major Events Act 2013*
- *Native Title (South Australia) Act 1994*
- *Native Vegetation Act 1991*
- *South Australian Motor Sport Act 1984*
- *South Australian Public Health Act 2011*

• [Victoria Square Act 2005](#)

8. KEY CITY OF ADELAIDE STRATEGIES, POLICIES AND PLANS

PLEASE NOTE:

- The City of Adelaide also prepares (and amends from time to time) a number of other, more detailed, policies designed to put into effect the APLMS and CLMP.
- The following list of these strategies, policies and plans is not in any particular order.

8.2 City of Adelaide Strategic Management Plans

Under the LG Act there are three types of plans which together are the strategic management plans of the Council. This includes:

- [The Strategic Plan](#)
- Asset Management Plans

- Long-term Financial Plan.

Together they meet the requirements of the LG Act including levels of service and infrastructure requirements.

8.3 Integrated Biodiversity Management Plan

The [Integrated Biodiversity Management Plan](#) (IBMP) outlines, in part, **the CoA's aims and approaches to conserve and improve the native biodiversity in the city**. Integration of biodiversity values with other planning and management in the Park Lands is a key theme of the plan, which has three objectives: to enhance biodiversity, connect people with nature and incorporate Kaurna knowledge into the management of the city's biodiversity. The IBMP sets out Key Biodiversity Areas to be protected.

8.4 Adelaide Park Lands Leasing and Licensing Policy

Areas of the Park Lands currently subject to leases and licences are shown on the Lease and Licence Map in the [Community Land Register](#) and in [Section 11](#).

Provisions under which the CoA may grant a lease or licence over land in the Park Lands are established under:

- [Sections 200 and 202 of the LG Act](#)
- [Section 21 of the APL Act](#)
- [Section 22 of the Local Government \(General Regulations\) 2013](#).

The [Adelaide Park Lands Leasing and Licensing Policy](#) ([PLACE HOLDER LINK](#)) provides CoA's framework for establishment and management of leases and licences for commercial and sporting activities in the Adelaide Park Lands.

8.4.1 Business Purposes

Consistent with section 200 of the LG Act, the Park Lands (community land) must not be used for business purposes unless the use is approved by Council. [Small scale commercial uses are envisaged for areas of Park Lands](#).

The Park Lands are exempt from the application of the *Retail and Commercial Lease Act 1995*.

8.4.2 Recreation and sport

The Park Lands may be subject to leases and licences for recreation, sporting or commercial activities where the use:

- Is consistent with the objectives of management of the Park Lands
- Provides community benefit
- Supports the outdoor recreational use of the Park Lands.

8.4.3 Aboriginal cultural uses

The CoA supports the use of the Park Lands by the Kaurna community and other Aboriginal [language](#) groups for cultural [practices and](#) activities [and practices](#) [subject to the approval of Council](#).

The Park Lands may be subject to licences/permits for such activities where the use is temporary and:

- [Limits vehicle access and parking is limited](#) to that required to undertake the activity

- The activity does not require permanent structures or infrastructure.

Any temporary structures must be removed from the site and the park restored to the satisfaction of CoA staff at completion of the activity.

The River has ecological values and supports native fish populations, aquatic and aerial mammals (rakali, grey-headed flying-foxes), reptiles (turtles, skinks and snakes) and a wide diversity of birds and insects. It supports native vegetation in the water body itself and along its banks.

APPENDIX A – PRINCIPLES FROM THE ADELAIDE PARK LANDS ACT 2005 (SA)

Adelaide Park Lands Act 2005 (SA) establishes the following statutory principles for the operation of the Act and the management of the Adelaide Park Lands:

- a) The land comprising the Adelaide Park Lands should, as far as is reasonably appropriate, correspond to the general intentions of Colonel William Light in establishing the first Plan of Adelaide in 1837.
- b) The Adelaide Park Lands should be held for the public benefit of the people of South Australia and should be generally available to them for their use and enjoyment (recognising that certain uses of the Park Lands may restrict or prevent access to particular parts of the Park Lands).
- c) The Adelaide Park Lands reflect and support a diverse range of environmental, cultural, recreational and social values and activities that should be protected and enhanced.
- d) The Adelaide Park Lands provide a defining feature to the City of Adelaide and contribute to the economic and social well-being of the City in a manner that should be recognised and enhanced.
- e) e) The contribution that the Adelaide Park Lands make to the natural heritage of the Adelaide Plains should be recognised, and consideration given to the extent to which initiatives involving the Park Lands can improve the biodiversity and sustainability of the Adelaide Plains.
- f) The State Government, State agencies and authorities, and the Adelaide City Council, should actively seek to co-operate and collaborate with each other in order to protect and enhance the Adelaide Park Lands.
- g) The interests of the South Australian community in ensuring the preservation of the Adelaide Park Lands are to be recognised, and activities that may affect the Park Lands should be consistent with maintaining or enhancing the environmental, cultural, recreational and social heritage status of the Park Lands for the benefit of the State.

APPENDIX ~~A~~B – NATIONAL HERITAGE LIST OFFICIAL VALUES

The Adelaide Park Lands and City Layout was inscribed on the National Heritage List on 7 November 2008. Detail on the listing is available here: http://www.environment.gov.au/cgi-bin/ahdb/search.pl?mode=place_detail;place_id=105758.

The official values against the six criteria are below. Figure A1 provides a map of the listed place.

Criterion A: Events, Processes

The Adelaide Park Lands and City Layout is the physical expression of the 1837 Adelaide Plan designed and laid out by Colonel William Light. It has endured as a recognisable historical layout for over 170 years retaining the key elements of the plan; encompassing the layout of the two major city areas separated by the Torrens River, the encircling Park Lands, the six town squares, and the grid pattern of major and minor roads. It is substantially intact and reflects Light's design intentions with high integrity.

The Adelaide Park Lands and City Layout is of outstanding importance because it signifies a turning point in the settlement of Australia. It was the first place in Australia to be planned and developed by free settlers, not as a penal settlement or military outpost. The colony of South Australia was established by incorporation as a commercial venture supported by the British Government, based on Edward Wakefield's theory of systematic colonisation. To be commercially successful, there needed to be contained settlement to avoid speculative land sales and this settlement needed to be designed and planned to attract free settlers and to provide them with security of land tenure. The city layout with its grid plan expedited the process of land survey enabling both rapid settlement of land and certainty of title. The wide streets, public squares and generous open spaces provided amenity and the surrounding park lands ensured a defined town boundary while still allowing for public institutional domains. These elements are discernible today.

The Adelaide Park Lands is also significant for the longevity of its protection and conservation. The Adelaide Municipal Corporation Act (1840) established the city council as the 'conservators' of the city and park lands. The establishment of the Park Lands Preservation Society in 1903, along with successive community organisations marks a continuing pattern in community support for safeguarding the significance of the Park Lands for the Adelaide community.

The Adelaide Plan was highly influential as a model for planning other towns in Australia and overseas. It is acknowledged by town planners and historians as a major influence on the Garden City Planning movement, one of the most important urban planning initiatives.

Criterion B: Rarity

The Adelaide Park Lands and City Layout is rare as the most complete example of nineteenth century colonial planning where planning and survey were undertaken prior to settlement. The historical layout as conceived in the 1837 Adelaide Plan remains clearly legible today. The place is also the only Australian capital city to be completely enclosed by park lands and is the most extensive and substantially intact nineteenth century park lands in Australia.

Criterion D: Principal characteristics of a class of places

The Adelaide Park Lands and City Layout is an exemplar of a nineteenth century planned urban centre. It demonstrates the principal characteristics of a nineteenth century city including a defined boundary, streets in a grid pattern, wide streets, public squares, spacious

rectangular blocks and expansive public open space for commons and public domains. The expression of these features with their generous open space reflects the early theories and ideas of the Garden City movement of an urban area set in publicly accessible open space with plantings, gardens, designed areas and open bushland.

Criterion F: Creative or technical achievement

Adelaide Park Lands and City Layout is regarded throughout Australia and the world as a masterwork of urban design. Elements of the Adelaide Plan that contribute to the design excellence are the use of the encircling park lands to define the boundary of the development of the city and to provide for health, public access, sport, recreation and public institutional domains, thereby meeting both economic and social requirements. Designing the city layout to respond to the topography was highly innovative for its time with the northern sections of the city located and angled to take advantage of the rising ground while retaining the Torrens River as a feature within the Park Lands. The judicious siting and wide streets maximised views and vistas through the city and Park Lands and from some locations to the Adelaide Hills. The plan features a hierarchy of road widths with a wide dimension to principal routes and terraces and alternating narrow and wide streets in the east-west direction. Light's planning innovation is supported by substantial historical documentation.

The formal organisation, delineation and dedication of the Park Lands space was a pioneering technical achievement of William Light in the Adelaide Plan.

The overall landscape planting design implemented by several successive landscape designers/managers incorporated designed vistas, formal avenues, plantations, gardens, use of specimen trees, botanically important living plant collections particularly at the Adelaide Botanic Garden and the strategic placement of buildings and statuary in their settings.

The creativity of the city and parkland design is clearly legible in the contemporary landscape viewed from the air or from the Adelaide Hills. The civic design of Adelaide was used as a model for founding many other towns in Australia and New Zealand and it is cited in later seminal Garden City planning texts including *Garden Cities of Tomorrow* by Ebenezer Howard.

Criterion G: Social value

The Adelaide Park Lands has outstanding social value to South Australians who see it as fundamental to the character and ambience of the city. The Park Lands with their recreation areas, sports grounds, gardens and public facilities provide venues for individual and group activities and events, meetings and passive and active recreation. The Park Lands also have significant social value due to the range of important civic, public, and cultural assets and institutions within it.

The present Adelaide Parklands Preservation Society is the latest in a long history of community groups dedicated to protecting the Adelaide Park Lands. These have included the Park Lands Defence Association (1869-87), the Park Lands Preservation League (1903, 1948) and the National Trust of South Australia. The longevity of the involvement of community groups in campaigning for the protection and safeguarding of the Park Lands is exceptional.

Criterion H: Significant people

Colonel William Light is most famously associated with the plan of Adelaide. He bore the ultimate responsibility, as recorded in his surviving publications and letters.

APPENDIX B-C – LIKELIHOOD OF IMPACT OF WORKS ON THE NATIONAL HERITAGE VALUES
